FRIDAY SEPTEMBER 11, 1915  
SATURDAY AUGUST 28, 1915

MAYSVILLE, KENTUCKY, SATURDAY, AUGUST 28, 1915.

ONE COPY—ONE CENT.

#### FAIR WARNING!

Gather ye eye-falls while ye may,  
Lest ye have cause for sorrow;  
For these See-Mores that bloom today  
May be opaque tomorrow.

#### BRICK STREETS NEED REPAIRING

Several places in the brick streets of this city need repairing badly, as the heavy traffic has caused them to sink in places where they have been torn up when a sewer or other pipes have been installed. Several of these places have drops that are from two to six inches in depth and one prominent contractor of this city while discussing the holes in the streets said it would be a good thing if a law were passed by the Council requiring that after a street had been torn up to make improvements the hole should be tamped, filled with water and allowed to settle. He says that the persons who tear up the streets are too anxious to relay them that they forget to tamp the ground and consequently the streets sink as the heavy earth.

#### SPEEDERS AT IT AGAIN.

After a short rest, probably due to the wet weather, the speeder is again amongst us and every level bit of pike and street is used by him as a playground. Friday morning about noon one of these pests astride a motorcycle was trying to outdo Bob Burman, the speed king, on the section of brick streets from Market to Wall and his pranks on the motor endangered the lives of a score or more of persons going to and from dinner. One bystander remarked that the offender was nearer forty miles an hour than six, the speed limit set by law. A stiff fine handed to a couple of these lunatics would put an end to the menace.

#### BEAUTIFUL FRONT ABOUT COMPLETED.

The beautiful new front of the Murphy building on West Second street, is about completed. The front is one of the nicest in the city, being a combination of black marble and walnut with bronze trimmings and when completed we venture to say that it will compare favorably with the best.

Max Willett, the young son of Mr. and Mrs. Charles Willett, of East Second street, who was operated upon yesterday in Cincinnati for adenoids, rallied from the operation nicely and is now getting along well.

Our sale on low shoes will last but one week longer and you are missing a chance to save money if you pass us by. BARKLEY'S SHOE STORE.

#### LAST GAME OF THE SEASON HERE MONDAY.

The last chance for the fans of this city to see a league ball game will be afforded them Monday, when the Colonels play the Charleston Senators for the fourth game of the present series. This game should be well attended, as the locals are playing the best ball ever seen on this lot and deserve all the patronage it is possible to give them. Let's make the last game of the season the biggest game of all and do things up in the regular Maysville style, bigger and better than all of the others. Come out and help the team win the pennant and advertise the town.

#### TIES THE RECORD.

Pitcher "Muck" McGraynor, of the locals, tied the Ohio State League record for consecutive wins Friday when he took the game from the Charleston team. He has won thirteen straight, tying with Test, the Boy Scout hurler of the Portsmouth team. As Mac has a few more games to pitch this season he no doubt will set a record that will not be broken for a few years. As it is, he has won thirteen games and lost only one, the opener, with Charleston, when he was defeated by the close score of 1 to 0.

#### LARGE CROWD ATTENDS GERMANTOWN FAIR.

The crowds that are attending the Germantown Fair this year bid to make the old reliable's attendance a record-breaker. Hundreds and hundreds from the surrounding country are attending and every day the many taxis and jitneys that run from this city to the fair are crowded to the limit. The owners are reaping big harvests from the fair goers, one man making nearly \$50 a day.

#### WOOD-BAILEY.

Mr. and Mrs. Arthur F. Wood have issued invitations to the marriage of their daughter, Miss Natalie, to Mr. James Yost Bailey, on Wednesday evening, September 8.

Miss Wood and Mr. Bailey are among the most popular of the county's younger social set and their host of friends wish them a long, happy and prosperous life.

Miss Julia McDaniel delightfully entertained about twenty of her friends Friday evening in honor of her guest, Miss Ruth Epperhalt, of Cincinnati. Dancing and cards were indulged in, after which delicious refreshments were served.

There's a bully good bargain offered in this paper this issue. Read the ads—dig it out—it may be just the one you are looking for. Always read the ads.

Mrs. R. V. Vieroy and son, of Cleveland, O., are visiting Mrs. Vieroy's mother, Susan Roden, of West Fourth street.

#### TONIGHT

AT NINE O'CLOCK THE GRAND 75,000 AND ONE-HUNDRED-DOLLAR GOLD OFFER ENDS.

#### THE SPECIAL OFFER

The three candidates of each district turning in the largest sum of money on subscription payments to either paper or both, wins one of the gold prizes. For every club of subscriptions to either paper or both, turned in to Campaign Headquarters amounting to \$15, will entitle you to 75,000 extra votes. Clubs may be built on subscriptions not less than four months in length. Cash must accompany subscriptions. This offer positively ends tonight at 9 o'clock.

Some people think in bunches instead of the slow, tedious method of analyzing each thought to which their minds give birth. The exigencies of modern times rather demand not only quick response, but require accumulative thinking—assimilating much with about the same effort. This thinking in bunches may be applied to the candidates who are striving to make the most of the special vote and gold offer that ends tonight, and announced as an added inducement in the Daily Bulletin-Public Ledger automobile contest.

By far the greater majority of them compare the vote offer with a multiplication table—its permits of doubling, trebling and more, the vote standings that will ultimately decide the winners of the twenty prizes. The manner in which they are advancing toward the top by virtue of this special offer is impressive. It is assuming a velocity that bids fair to liken itself to a torrential stream ere the offer comes to a close tonight.

In the Daily Bulletin-Public Ledger campaign are dozens of young women with but a single thought, the winning of an automobile.

#### HERE'S THE CHANCE.

The special offer in which they are now participating makes it possible to amass votes by the thousands by the simple expedient of building new subscription clubs to either paper or both.

The offer holds out the possibilities of enabling any candidate no matter where she stands in the vote list now, to soar to the greatest height in the campaign. It may be the decisive factor in singling her out as the one to whom a luxurious automobile will be presented free of charge. The Daily Bulletin-Public Ledger contest comes to an official close Saturday night, September 11, 1915, and this very short period makes it even more imperative that this special offer be made the most of.

#### EQUAL CHANCES.

In order to extend to the candidates residing in the country the same length of time that Maysville candidates have in sending or bringing in subscriptions before the expiration of this special offer, the former may mail their subscriptions to the Contest Department at any time before 9 o'clock Saturday night. As long as the postmark does not bear any hour later than this it will be included in the offer and entitle the candidate to special votes.

Thus, country candidates have as much time to work in as the city candidates have. Be sure that remittance corresponds with stubs and that full and complete address is given. Subscriptions need not be withheld until the last day or so for the Campaign Manager keeps an accurate record of every subscription turned or sent in.

When candidates ask their friends and acquaintances for a subscription to either paper or both, they know that they are presenting two of the greatest newspapers in this part of the state of Kentucky. They strive to make its columns better every day and each issue presents a careful presentation of the latest news, together with special features that interest everybody.

#### LADIES' DAY-TODAY.

Today is Ladies' Day and of course the Colonels will win. Who ever heard of them doing otherwise on Ladies' Day. Ladies, you should all come out today and help the boys win the game from Charleston and clinch the pennant.

Mr. and Mrs. J. E. Watson and two children, of Mayfield, Ky., are visiting Mrs. Watson's mother, Mrs. Susan Roden, of West Fourth street.

Mr. C. E. Dietrich, of De Nuzle and Public Ledger, returned Friday evening from a few days' business trip to Indianapolis.

Mr. L. T. Anderson Friday shipped his horses to Columbus, O., where they will be shown in the State Fair next week.

## A GREAT REDUCTION

In going over our stock we find that we are OVERLOADED, and have decided to REDUCE STOCK, and it goes at cost. This space will not permit us to list it all. One great bargain is 100,000 feet of an EXCELLENT GRADE OF OAK SIDING. This goes at \$2 PER HUNDRED. All other yard stock greatly reduced.

Don't miss this opportunity to get what you want in lumber and building material at the lowest prices ever known in Maysville. Terms at this reduced price are CASH.

#### GERMANTOWN FAIR COMPANY MAKES DONATION TO FARM DEMONSTRATION WORK.

At a meeting of the Germantown Fair directors Friday it was decided to co-operate with the Fiscal Court and others interested in farm demonstration work and accordingly the fair company subscribed \$50 in addition to the amount appropriated by the Fiscal Court for the salary of a Farm Demonstrator.

It is authoritatively stated that some merchants and bankers of Maysville, Mayslick and other points will also subscribe toward the fund and it is hoped that the services of some capable demonstrator may be secured.

The fair company was quick to realize the value of farm demonstration work, not only to its own interests, but to the entire community and if the business men of the community will consider the matter it will be seen that whatever amount is subscribed will be more in the nature of an investment than a donation.

#### SUES C. & O. FOR \$10,000.

William Gilp, administrator of the estate of Christopher Gilp, deceased, who was killed by a C. & O. train several months ago, entered suit in the office of Circuit Clerk Key against the C. & O. railroad and F. L. Loring and Fred Lamberton for the sum of \$10,000 damages.

It will be remembered that Gilp was walking along the railroad track near the County Infirmary when he was killed by a train. The plaintiff says that the accident was the outcome of gross negligence on the part of the defendant and hence the suit.

#### TRUCK DOES IMMENSE BUSINESS.

Mr. E. G. Dye, the truck transfer man, running a truck between this city and Flemingsburg, is doing the biggest business of his career this week. The cause of the big business is the Germantown Fair and his big truck passed through this city bound for the fair with passengers all over it, on the running board, on the roof and on the mud guards, in fact the persons on the streets could hardly see the truck for the passengers. Other trucks are doing the same amount of business.

#### FORMER MASON COUNTY WOMAN DEAD.

Mrs. John Gallenstein, of Warren, O., formerly of this county, died suddenly Thursday evening. She was well known here, having lived at Washington for a number of years. The funeral will be Sunday from her mother's home, at Woodsfield, O. Interment in the cemetery at that place.

Mr. Edward McNamara, of Portsmouth, who has been visiting Mr. Charles Eitel, of this city, returned to his home Saturday morning.

#### INSURANCE PICNIC A SUCCESS.

The Western and Southern Insurance Company's picnic Thursday at Beechwood Park was a decided success and all that attended said that they had the time of the lives. The day was spent in speech-making, eating and playing of games. All who attended are anxiously awaiting announcement of the date of the next one.

Colonel Will Osborne, of Mt. Olivet, was a business visitor in this city Friday.

## The Unfilled Grade of WINDOW SHADES

This famous grade of shade cloth is made of an entirely different material—a closely woven cloth without that "filling" of chalk and clay which causes the ordinary shade to crack and show pinholes the first time a sudden strain is imposed upon it.

Sun won't fade an unfilled shade, nor water spot it.

It is supple—not stiff, yet always hangs straight and smooth.

It wears so much better than the ordinary shade, not only under sudden strains but under daily usage, that in the end you will find them to be far cheaper.

Made in many rich, lustreless tones and in duplex—light on one side and dark on the other.

If you want the utmost in shade beauty and economy, buy our unfilled window shades. Estimates cheerfully given at any time.

## TAKING THE PROGRESSIVES TOO SERIOUSLY.

Before another year has passed all the candidates for the office of President of the United States will probably have been nominated and the platforms upon which they will ask for the people's votes announced to the world. And with the near approach of these important events the thought is suggested that the leaders of the two great parties are speculating with rather more seriousness than the situation justifies upon the probable intentions of the Progressives. The issues between Republicans and Democrats are already clearly defined, the general plan and scope of their campaigns marked out, and organization can be accomplished speedily and with assured effectiveness. On the other hand, the Progressives are at sea without compass or rudder, with no issues in sight and with no present prospect of finding a landing place.

The present tendency, if it is continued, points plainly to the party's finish. Practically it has already been reabsorbed by the G. O. P., a process clearly reflected in the last election returns. Of late there has been a rush of returning prodigals, unchided by Colonel Roosevelt, who without unctious announcements that he will "enroll as a Progressive," and advises others who consult him to do the same. Some great, overshadowing is-

sure, or some frenzied rallying cry must be invented if the Progressive party is to breathe again, an event then there may be hesitation to respond lest the note again prove false. So, in spite of Victor Murdock's flamboyant proclamation that a winning battle is to be fought next year, the most that, from present indications, is to be apprehended from the Progressives is that they will be able to maintain some semblance of an organization, scattered though it will be, and cast their ballots with more or less unanimity for the man or measures that appeal to their fancy.—Washington Herald.

## BOYS ON THE NIGHT SHIFT.

Pennsylvania Now Prohibits It, but Maryland and West Virginia Do Not. After Jan. 1, 1916, no more young boys will be working on the night shift in the glass factories of the largest glass manufacturing state in the country—Pennsylvania. This means that West Virginia and Maryland are now the only glass manufacturing states of any importance which permit children under sixteen to work at night. An attempt was made in West Virginia last winter to prohibit night work to children under sixteen, but the bill did not pass. The National Child Labor Committee, which took an active part in the campaign for the West Virginia law, believes that the outcome will be quite

Photo by National Child Labor Committee.

5 P. M., READY TO GO ON THE NIGHT SHIFT. different the next time, because the glass manufacturers there will no longer fear the competition of Pennsylvania.

"We may not even have to wait until the legislatures meet in 1917 to bring these states into line," said Owen R. Lovejoy, general secretary of the National Child Labor Committee. "If the federal child labor bill which will be introduced into congress early in the next session becomes a law it will automatically establish a sixteen year limit for night work in the glass factories of Maryland and West Virginia. The children now exposed to the serious physical harm likely to come from going out into the air from the overheated glass factory and the cramped positions in which they work, combined with the degrading and coarsening influences which prevail on the night force in the factory, will be protected by Uncle Sam."

"If you could see the boys, as I have seen them, working in a temperature which frequently rises to more than 100 degrees, their shoes cut with the broken glass which covers the floor, holding the mold for the red hot glass or walking endlessly back and forth carrying bottles to the annealing oven, you would realize that the only thing that mattered was to get them out of the quickest and wisest way—by means of a federal law."

## MUCH TALK.

Nevada Representative: As we would understand the matter, a government like that of the United States, when it gets into a controversy like the present one with Germany, has the choice of four alternatives; provided that it is lucky enough to find them all. It may carry its point; it may quit talking and fight; it may quit talking without fighting, or it may just keep on talking. The Wilson idea seems to be to keep on talking.

The death ship Eastland has been righted, but that is more than can be said of the crime.

## Beware of Ointments For Catarrh That Contain Mercury.

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescription from reputable physicians, as the damage they will do is tenfold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, O., by F. J. Cheney & Co. Testimonials free. Sold by Druggists. Price 75c per bottle. ## FAMILY AVOIDS SERIOUS SICKNESS

By Being Constantly Supplied With Theford's Black-Draught.

McDuff, Va.—"I suffered for several years," says Mrs. J. B. Whitaker, of this place, "with sick headache, and stomach trouble."

Ten years ago a friend told me to try Theford's Black-Draught, which I did, and I found it to be the best family medicine for young and old.

I keep Black-Draught on hand all the time now, and when my children feel a little bad, they ask me for a dose, and it does them more good than any medicine they ever tried.

We never have a long spell of sickness in our family, since we commenced using Black-Draught.

Theford's Black-Draught is purely vegetable, and has been found to regulate weak stomachs, aid digestion, relieve indigestion, colic, wind, nausea, headache, sick stomach, and similar symptoms.

It has been in constant use for more than 70 years, and has benefited more than a million people.

Your druggist sells and recommends Black-Draught. Price only 25c. Get a package to-day.

## Candidates Attention!

Next Saturday, August 28, is gold and bonus day in the great contest and during the remaining days of this week every candidate should put forth her very best effort and thereby secure every possible subscription to apply on the two special offers.

Send or bring in all of your subscriptions Saturday. Every \$15 worth, either new or old, entitles you to 75,000 extra votes in addition to the regular votes. How many clubs will you secure? The next vote offer will be smaller, so if you want the most votes Saturday is the day to bring in your order.

## \$2,400 PRIZE RACE

\$50 in gold will be divided and given to the three candidates of each district who send or bring into the Contest Office the largest amounts respectively of subscription money between August 17 and August 28 inclusive. Every subscription brought in this week counts on this gold offer and also on the extra 75,000 offer. Now is the time for you to secure the winning votes.

Don't Forget Special Offer Ends Saturday, August 28. Contest Ends September 11.

Mrs. Gasner, of Ft. Thomas, is visiting Miss Grace Anderson.

### JIMALETTES.

(Cynthiana Democrat.)

Returns from the four counties, Harrison, Nicholas, Pendleton and Robertson, show that Judge Fryer carried every precinct in the district. Some load.

So many people come in and ask us for a free copy of the Democrat that we wonder how many persons ask merchants for a free cigar or free spool of thread. Do you ever ask for anything free except at newspaper offices?

"Is there any law against spanking a man with whisks—Carranza, for instance?" asks the Louisville Herald. You couldn't spank a man with whisks, you know; the nearest you could come would be with a hair brush.

The Etown News says "George Fitch, the author, of Peoria, Ill., died in a sanitarium in Berkeley, Cal." If George was the author of Peoria, Ill., it is not surprising that he died in a sanitarium. It is almost as bad as being the author of Peoria, O.

That Boston firm which has declined to have further business dealings with the city of Atlanta until action is taken in connection with the Leo Frank lynching, is a fine example of the ludicrous act of amputating one's proboscis to spite one's physiognomy, as they would say in Beantown.

Different people have different customs. The Eskimo pays his doctor his fee as soon as he arrives. If the patient recovers it is kept; if not, it is returned. In China the fee is paid if the patient recovers; if not, they cut off the doctor's head. In America if the patient recovers, he laughs at the doctor; if not, his heirs laugh at him.

During the recent primary campaign the opponents of Judge Bunk Gardner, of Mayfield, urged the voters to oppose him because he was a single man, but Judge Bunk promised that if nominated he would within five days marry "the sweetest girl in Mayfield." Thursday he redeemed the pledge by leading to the altar Miss Winnie Winn. It seems that the Judge was bound to Winn.

With the liquor question out of the way, Kentucky will have more time to make war on illiteracy, tuberculosis, trachoma, foot and mouth disease, pink-eye, pip, book agents and kids with tickets for sale.

If it is really true that Noah and not Eve ate the forbidden fruit and is responsible for the fall of man there may have been some excuse for his getting drunk. We have known men to get drunk on less provocation.

Joshua Conkling Reeves, of Strystown, Pa., has invented a kiss resonator. Joshua has three lovely daughters and he is a little suspicious of their many male callers. The instrument catches and increases sound. Joshua says good-night kissing sounds like cannon shots. But the old man is still in trouble, for now that he hears and knows beyond a doubt or peradventure that kissing does sometimes occur he is entirely at sea as to what course he should take to stop it, says the Frankfort State Journal. We have had no experience in kissing-stoppage, but hazard the suggestion that Joshua put the girls on a steady diet of onions.

### THE ADMINISTRATION'S FAVORITE CHILD.

A favorite child is apt to be a nuisance to the other members of the family. If the administration sticks to the ship purchase bill, as Mr. McAdoo "confidently expects" it will, the legislative program of the next Congress will probably suffer as that of the last did. There is no demand in the country for this futile measure. Shipowners and shipbuilders, advocates of subsidies of free ships, alike denounce it. If it were put through it would complete the ruin of the deep seas mercantile marine begun by the passage of the seaman's act. Government competition would be fatal to private enterprise. It would create a monopoly of the most offensive kind, from whose exactions the shippers would have no redress. Political management would take the place of business management. It is hardly necessary to rehearse objections all but universally admitted. Nor is the obstinacy of the administration worth discussing. If the President and Secretary will not take the advice of practical men, if they are bound to push their fantastic plan in the face of every warning, there is no law to restrain them. But their attitude does not add to the public confidence in their good sense.—Philadelphia Ledger.

## OUR PUBLIC FORUM

### Peter Radford On Too Many Lawyers.

When the sheriff cries out "Oh! yes, Oh! yes, the court is now in session," the farmer should tighten the belt around his belly for it is he who pays the cost. When the lawyer says "May it please the court," the farmer has to shorten the shirts of his children for they must foot the bill and when the legislature announces "Be it enacted," unborn babes may well kick against their prison walls for they may live to pay the penalty. We have too many laws, too many lawyers and too much government. No man dares to run a business without lawyers to the right of him and lawyers to the left of him. Expensive litigation and excessive legislation are clogging the wheels of progress. To meet this situation the railroads are oftentimes compelled to take off a train and put on a lawyer; the manufacturer is oftentimes compelled to close down a furnace and put on a lawyer; the farmer is oftentimes compelled to sell a steer to pay the lawyers, for the man who digs in the ground usually pays the freight and every article which he buys carries on the price tag court costs and lawyers' fees.

There are in the United States 115,000 lawyers and about twenty thousand courts of various jurisdiction which cost the people of this nation approximately \$1,500,000,000 per annum. It costs more to run the legal affairs in this nation than it does to clothe all the people. It costs more to settle legal disputes than it does to run our educational and religious institutions and care for the health of all the people combined. Less than three per cent of our population are able to employ lawyers to interpret the mass of legal lore that burdens our statute books. The remaining ninety-seven per cent have to take the raw stuff right out of the mill.

We are a government by lawyers and for lawyers. It is they who are responsible for the legislative cure-alls, espionage, unrest and business disturbance that infest our statute books, for at the source of most every law is a lawyer. They have in no case lowered the price of the commodity or benefited the people but they have burdened industry and restrained commerce and have built up their profession until it dominates government, tyrannizes business and terrorizes progress.

There is no more valuable citizen in our land than a patriotic, able, conscientious lawyer, seeking to direct the ship of state through the tortuous channels of 20th century civilization; piloting a business through the legislative billows that dash with maddened fury across its pathway and whose genius can calm the fear and command the confidence of the people in the integrity of Republican institutions, but there is no greater peril to society than a political lawyer who seeks to prostitute government, stain business with suspicion and arouse distrust in the minds of the people. Unfortunately the latter class are a strong factor in the profession, oftentimes in high places, and unless the better class unite in driving the quacks from their midst an outraged public opinion will administer a rebuke that will humble the pride, crush the hope and smash the power of the profession and reduce its possibilities to ashes.

### NO CHILDREN IN THE MINES.

California Eliminates Children Under Sixteen From Mines and Quarries.

Among the new limits established by the California child labor law of 1915 is a sixteen year limit for mines and quarries. California has mining products valued at more than \$63,000,000, according to the 1910 census, but she has never before set an age limit for the children who might be employed in their production.

Now that a sixteen year limit has been adopted no fourteen or fifteen year old trapper boys will be found among the victims of an explosion, as was the case in West Virginia last year, nor will their thoughtlessness be the cause of disasters in which others are killed, as it sometimes is where boys under sixteen are permitted to work in mines.

Mining has the highest fatal accident rate of any industry, but quarrying is not far behind. A signal boy was crushed to death by a falling stone in

Photo by National Child Labor Committee. BOYS WHO REMOVE SLATE FROM COAL IN THE MINE.

a Maine quarry last fall. The occupation of signal boy is not generally supposed to be dangerous, but it is evident from this that any occupation in a quarry is unsafe for young boys and that a sixteen year limit is imperative. A number of mining states having both mines and quarries have adopted a sixteen year limit for mines only, forgetting that the dangers from falling stone and blasting make the presence of young boys in quarries a risk to be avoided.

California's action is regarded as particularly significant by the National Child Labor Committee in view of the "law of recurrence" which Dr. Felix Adler spoke about at the Eleventh Annual Conference on Child Labor. Dr. Adler said that the evils of child labor had followed industrial development from England to New York and Massachusetts, from there to the south and from the south would go to the west unless the west prevented it by enacting child labor laws in advance. Child labor in the mines will not "recur" in California.

### RURAL MAIL DELIVERY.

Washington, D. C., August 28.—The failure of the Democrats to pass the postoffice appropriation bill in the last Congress has shamefully crippled the rural free delivery service.

Members of Congress declare that complaints they are receiving from both rural mail carriers and patrons have been numerous and bitter in the last few months than for years before.

Rural carriers claim that they have suffered chiefly on two counts; one that although they are under civil service there have been hundreds of dismissals without just cause; the other that their routes have been lengthened and their work increased without additional pay.

The complaints from patrons of the rural routes are uniformly based upon sweeping reductions in the service. The conditions causing these complaints are due to the failure of the postoffice appropriation bill and the consequent necessity for managing the postal service under a re-enactment of last year's appropriation.

The principal changes ordered by the department reducing the carrier force arise, first, by the proposed consolidation of about 1,500 routes twenty-five miles long into half that number fifty miles long; second, in lengthening the standard routes and still further reducing the carrier force; third, by making one carrier serve two routes on alternate days and dropping the extra carrier. It is estimated that more than 2,000 rural carriers have lost their places under these reductions.

The patrons of the rural routes base their criticisms, first, on the claim that many have had to move their mail boxes at least half a mile from former locations and they instead of the carriers, must travel that distance for mail; second, that instead of getting mail six times a week they receive it only every other day; third, that all these changes cripple the efficiency of the parcel post service, especially as to perishable goods. There is also a general complaint of curtailment of the rural free delivery service.

Mass meetings of patrons have been held in many localities protesting against the demoralization of their service and are daily becoming more frequent.

Reports from associations of rural carriers claim that not only have the men lost their enthusiasm for the service, but through fear of dismissal have resigned. This is largely the result, it is said, of department instructions to have Democratic postmasters, instead of Civil Service inspectors, make confidential reports upon the qualifications of carriers as a basis for reductions. This arrangement has opened the way to rank discrimination in favor of Democratic carriers.

### GOOD ROADS.

New York, August 27.—The dominating problem in connection with highway building at the present time is unquestionably that of finance and indebtedness. This applies both to country roads and city streets, and involves the questions as to whether direct taxation or bond issues are preferable, the proper term for bonds, the amount of bonds which may be judicially issued for road and street construction under given conditions; the legislation which may be necessary in reducing these essential factors from the hap-hazard to a basis which shall be scientific and economic, the questions of sinking funds, and bond retirements, all appeal directly to the best financial sense of all citizens when road or street improvement is contemplated.

The fact that probably one-half of the counties and cities in the United States and other American countries are now at some stage of the agitation for highway betterment makes the financial problem one of paramount importance. The subject will be presented and discussed in all its phases at the Pan-American Road Congress, which will assemble at Municipal Auditorium, Oakland, Cal., Monday, September 13, and continue five days.

While steady and regular advancement has been made during the past ten years in methods of road and street construction, maintenance and administration, it has been through the annual conventions of the two great national organizations, the American Road Builders' Association and the American Highway Association, that the knowledge of the various lines of improvement has become general, and the whole world enabled to profit. This year the two associations have joined their forces to organize the Pan-American Road Congress, and secure the presence of delegates from practically every country in all America. They will be aided on the Pacific coast by two organizations with memberships in California, Oregon and Washington. The Tri-State Good Roads Association and the Pacific Highway Association.

Twenty-seven subjects will be considered at the Congress. Six of these are educational; the other twenty-one are open to discussion, not only by those selected by the program committee to prepare papers and lead discussions, but by any one delegate, member or visitor who may be present, so that all known facts may be brought out.

Don't hesitate about paying up your subscription. We are still able to recognize a dollar when we see it.

### SIGNS OF DANGER

That Should Be Heeded By Maysville People.

There's serious danger in neglecting any weakness of the kidneys. The warning that Nature gives should not be overlooked. If troubled by too frequent passage of the kidney secretions; burning or scalding; if the secretions are highly colored and contain sediment when left standing—if you have backache, too, with frequent headaches and dizziness, make up your mind that your kidneys are affected and begin using some reliable kidney remedy. Deaths from kidney disease have increased in the United States alone, 72 per cent in the last 20 years. The risk is too great—you can't afford to delay. Maysville people recommend Doan's Kidney Pills. Can you ask for better proof of merit than the statement of this Maysville resident?

W. F. Lynch, 127 West Third St., Maysville, says: "My kidneys were weak and the passages of the kidney secretions were scanty and painful. Having used Doan's Kidney Pills before, I again got a box and they quickly restored my kidneys to a normal condition."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Lynch had. Foster-Milburn Co., Props., Buffalo, N. Y.

## REVENGE IS SWEET

"MUCK" M'GRAYNOR HOLDS SENATORS TO FOUR MEASLY BINGLES AND MAYSVILLE WINS BY SCORE OF TWO-TO-ONE—THIRTEENTH STRAIGHT VICTORY FOR LOCAL PITCHER.

Friday afternoon before a small crowd of fans, Pitcher "Muck" McGraynor, of the local pitching staff, got full and just revenge from the Charleston Senators, under the leadership of one "Biddy" Beers, for the defeat administered to him on the opening day of the present season by that team. The opening day defeat is the only one chalked up against him, and he had been watchfully waiting for the chance to get even and when he let the hard-hitting boys from the capital city down with one measly little run and but four small bingles, while he materially helped to down the opponents with his timely batting, he certainly got revenge.

The game was very exciting and extremely fast, being played in one hour and twenty-five minutes. The features for the locals were the fielding of Tipton, who pulled down some of the surest-looking hits. Tip was ably seconded by Emmer, who again was up to his pranks of pulling something really sensational at third, when he ran in to the dog house and caught the foul tip off the bat of Corbin in the fourth inning. Kelly led the team at bat, getting an average for the day of .500. For the Charleston team, Trautman was the whole works and a little bit more, getting two bingles out of three trips to the plate and accepting several hard chances at second without a bobble. Here is the way the locals won the game:

In the fourth frame they got next to Simms for two runs and the game. Tipton singled and reached second on Simms' error; Tinnin bunted, Tipton out at third, Beers to Curtis; Kelly paraded; Henderson got to first on Corbin's error; McGraynor hit a hot one to Corbin, who threw wide to the plate, Tinnin and Kelly scoring on the play; Henderson out at home when a squeeze play by H. Devore failed to work; H. Devore rolled, Simms to Corbin. Two runs. Two hits. Two errors.

The visitors got their only tally in the eighth when Trautman singled; Mohrman flew to H. Devore; Coffendaffer singled; Simms rolled to Kelly, who got Coffendaffer at second, but Trautman scored on Tipton's wild peg to first in an effort to get Simms and a double play; Nutter flew to H. Devore. One run. Two hits. One error.

EXPECT COLD WAVE WILL BE AT END BY TONIGHT.

The cool wave which spread frosts and low temperatures over much of the country east of the Mississippi, is almost spent, according to Washington weather experts, who declare it will be warmer today and by Monday the wintry storm causing the abnormal temperatures would have passed into the Atlantic, leaving behind generally fair and warm weather.

Although frosts occurred generally through the upper lake region and in the northeast, officials said no reports had been received of crop damage in this territory.

### REICHSTAG ADJOURNS.

London.—According to a telegram received from Berlin, says Reuter's Amsterdam correspondent, the Reichstag has adjourned until November 30. President Kaempf was enthusiastically applauded when he announced that at the suggestion of Dr. Von Bethmann-Hollweg, the imperial chancellor, the Reichstag building would be ornamented with a tablet inscribed "To the German People."

Of course we will appreciate all of the good things you will say of us when we are dead, but we are a patient animal and in no hurry to start your eulogies.

## AMMUNITION RELEASED.

Los Angeles, August 28.—More than half a million rounds of ammunition and fifty cases of rifles held up weeks ago by the government on suspicion that they were intended for a Mexican filibustering expedition, have been released for shipment to Carranza agents at Mazatlan. At the same time orders were given to let 300,000 rounds of ammunition pass from Calixto, Cal., to Colonel Ezean Cantu, Villa chieftain in Lower California.

### FIRST M. E. CHURCH, SOUTH.

Next Sunday is the last Sunday before conference. The pastor will preach at the regular morning hour and desires a full attendance of the membership. The evening service will be dismissed for the Union service at the First Presbyterian church.

## ANNOUNCEMENT

The following prices f. o. b. Detroit, effective Aug. 2, 1915:

Ford Runabout	\$390.00
Ford Touring Car	440.00
Ford Town Car	640.00

No speedometer included in this year's equipment, otherwise cars fully equipped.

There can be no assurance given against an advance in these prices at any time. We guarantee, however, that there will be no reduction in these prices prior to Aug. 1, 1916.

### Profit-Sharing With Retail Buyers

On August 1, 1914 we made the announcement that if we could make and sell at retail 300,000 Ford cars between August 1, 1914 and August 1, 1915 we would share profits with the retail purchasers, to the extent of from \$40 to \$60 on each car. We have sold over 300,000 Ford cars in the time specified, and profit-sharing checks of \$50 each will be distributed as rapidly as possible after August 15, 1915. Retail purchasers who have not yet mailed us their profit-sharing coupons, properly endorsed, should do so without delay.

Our plan to profit-share with retail purchasers of Ford cars during 1914-15 has been most successful. We thoroughly believe in it, but, realizing the uncertainty of conditions generally makes it advisable to defer any announcement of future profit-sharing until a later date.

We are however, confident of our inability to reduce costs for several months, and therefore can offer no profit-sharing for cars.
